

19.1.2012

I HAVE MADE THIS TEAPOT
 IN 2005 in the circle of ceramic
 workshop. IT IS NOW 7 YEARS AGO.
~~IT IS THE ONLY~~ IT IS NOT THE ONLY
 TEAPOT I HAVE EVER MADE BUT
 DEFINITELY THE ONE I USE THE
 MOST. AND MY ~~FAVOR~~ MY FAVORITE ONE
 FOR SURE. SINCE THEN I'VE TRIED TO
 MAKE A TEAPOT ^{LIKE THIS} A COUPLE OF TIMES ~~THE~~
 ALREADY ~~BY~~ BUT NEVER SUCCEED.
 THEY ALWAYS TURN VERY CRAP.
 EITHER THE GLAZE IS TOO BAD OR IT
 COMES OUT THAT IT DOESN'T POUR THE
 TEA PROPERLY WHICH IS THE A MAJOR
 PROBLEM OF TEAPOT MAKING. AND I WAS
 SO PROUD OF MYSELF AND THE INSIDE
 THE TEAPOT THAT I HAD ACCEPTED
 THIS ONE AS PART OF MY LIFE AND
 I WAS ALWAYS MOUNDING WITH THE TEAPOT SO
 IT BECAME MY FRIEND AFTER A WHILE.
 RECENTLY - (ONE DAY) I MENTIONED
 NOTICES ~~THAT MY TEAPOT~~ POUR WHILE
 HAVING A CUP OF TEA - THAT MY TEAPOT

POURS THE TEA ^{SOMETIMES} DIFFERENTLY.
THE TEA STREAM COMING OUT OF THE
MOUTH OF MY TEA POT WAS WEAKER!
EVEN IF THE TEA POT IS FULL OF TEA,
WHICH MEANS IT HAS TO POUR STRONG,
AND FLUENTLY. WHEN I LOOKED CLOSER,
I NOTICED ~~THE TEA POT~~ SOME TEA LIEFS
GOT STUCK INSIDE OF THE MOUTH.
AND BECAUSE THE MOUTH IS CONNECTED
TO THE BODY OF THE TEA POT DIRECTLY,
THERE ARE JUST 2 HOLES IN
THE WALL OF THE TEA POT TO ALLOW
THE LIQUID COME OUT THROUGH THE
MOUTH. WHICH MEANS THERE WAS
NO CHANCE TO CLEAN THE INSIDE OF
THE MOUTH PROPERLY. I TOOK A WOODEN
STICK AND STICK IT THROUGH ~~THE~~ THROUGH
THE MOUTH END AND TRIED TO TAKE
OUT THE LIE STUCK LIEFS AS MUCH
AS I COULD. NOW THE TEA POT POURS
AGAIN NORMALLY OUT. I WONDERED
THAT THIS WILL BECOME A PROBLEM
IN SOME MORE TIME.

I WANT A DEMONSTRATION OF
MY TEA POT IN THIS OBJECT.
